**Software Test Engineer**

Hexaview Technologies Pvt. Ltd

## CAREER OBJECTIVE

To get an opportunity where I can make the best of my potential and contribute to the organizations growth where I can use my knowledge of software testing, technical skills like **Manual Testing** Using **Functional, Non-Functional, Sanity, Smoke, Retesting, Regression, Mobile Testing, API Testing, Database** Testing, using **Jira**.

## PROFESSIONAL SYNOPSIS

- Software Test Engineer with **4 years of experience** in **Manual Testing & API Testing**.
- Strong in **SDLC, STLC, Defect Life Cycle**, Proficiency in **Agile Sprint**.
- Proficient in testing on **web-based** applications.
- Strong knowledge of different types of testing's like **Sanity, GUI, Functional Testing, Re-Testing, Regression Testing, Globalization Testing** and **Database Testing, Browser Compatibility Testing**.
- Proven expertise in ensuring software reliability and performance by conducting **quality assurance** and **Manual testing**, including software **test case development** and execution, implementation of test plans, and **bug tracking**.
- Good in **performing Curd operations** on API using **Postman** like **SOAP UI** to execute API test cases
- Conduct **unscripted, exploratory tests** to identify edge cases or hidden issues.
- Evaluate product functionality based on **technical specification** given.
- Design detailed test cases for all **API endpoints**, covering **positive, negative, edge cases & error** handling. Preparing **daily status report**, weekly status report etc.
- Experience in testing React native application **Web Applications**.
- Verify the applications interface, **business analyst** & product teams to clarify requirements & prioritise issues
- Hands on experience of **Mobile Testing (Android & IOS)**
- Documents defects clearly with steps to **reproduce, screenshots** & logs where necessary.
- Hands on working with Ticketing & Tracking tools like **JIRA**.
- Identify test scenarios and define a structured approach to **functional & non-functional testing**
- Knowledge cross-functional teams to ensure quality throughout the **Software Development Life Cycle(SDLC)**.
- Prepare **tests summery reports** & highlighted risk or **blockers** to stakeholders
- Knowledge of organizing, monitoring **Defect Management process**, handling changes and conducting Regression Tests.
- Good knowledge of SQL and **database testing** by **MYSQL**.
- Hands on experience of **GUI and Functional Testing**, using **Black Box Testing Techniques**.
- Knowledge of Identify and **Report Defects** within the systems and applications under test.
- Hands on experience of in preparing **Requirement Traceability Matrix**.
- Hands on experience of on end to end Functional and Regression Testing of applications, including requirements understanding, Test Case and Scenario development, Test Execution, **Results Analysis and Sign Off**.

## WORK EXPERIENCE

- |   |                             |
|---|-----------------------------|
| ➤ Working as <b>Software Quality Engineer</b> with Hexaview Technologies Pvt. Ltd | <b>Jul 2023 to Present</b>  |
| ➤ Worked as <b>Software Quality Engineer</b> with Deltatech Private Limited       | <b>Sep 2021 to Jun 2023</b> |

## TECHNICAL SKILLS

- Operating Systems : Windows 7,8,10,11, Linux
- Databases : MYSQL
- Rest Assured API Testing : Postman
- Project Management Tool : JIRA, MS-Excel.
- Manual & API Testing

## PROJECT DESCRIPTION

**Project 1:** Mobex Health App

**Project 2:** Adobe Account and Manage Plan, Admin Console, IMS

**Project 3:** Cricket Fantasy and Ludo

**Testing Approach:** Manual & API Testing

### Roles and Responsibilities

- Involved in designing **Test Scenarios** and **Test Cases**.
- Performing **Database Testing** using **MYSQL**.
- Verifying **Test Environment**.
- Understanding and Analysing **Test Requirements**.
- Hands on experience of **Mobile Testing (Android & IOS)**
- Contribution to **Test Plan Document**.
- Organizing, monitoring **Defect Management process**, handling changes and conducting **regression tests**.
- Participate in all **sprint activities** including, **Daily Stand Ups**, grooming session, **planning**,
- **Requirements Gathering**, **Story Writing**, and solution design sessions.
- Interact with **Business Analyst** for requirement analysis.
- Deriving **Test Scenarios**, Documenting **Test Cases** and Collecting **Test Data** for **Functional Testing**.
- Updating **Traceability Matrix** Documents.
- Collaborated with **developers** and **business analysts**.
- Updated the Testing Status on **Dashboard** in the client environment on daily basis.
- Attended Status call with the **Development Team** and Client.
- Responsible of performing **CRUD operations** on **API** using **Postman**.
- Organizing, monitoring defect management process using **JIRA**.
- Creating **Test Batches**, **Executing Test Cases** and **Reporting Defects**.
- **Tracking Defects**, Selecting Test Cases for **Regression Testing**.
- Sanity Testing, Regression Testing on **modified Software**.
- Knowledge in end to end **Functional and Regression Testing** of applications, including requirements understanding, Test Case and Scenario development, **test execution**, Results Analysis and **Sign Off**.

## ACADEMIC DETAILS

❖ **Bachelor Of Technology** from Kurukshetra University.

## DECLARATION

I hereby declare that the above information provided by me is true to the best of my knowledge and may be subject to verification of any kind.
